

Sewage Treatment Plants for Today

**ADVANCED TREATMENT PROCESS
RBBR (ROTATING BED BIO REACTOR) TECHNOLOGY**

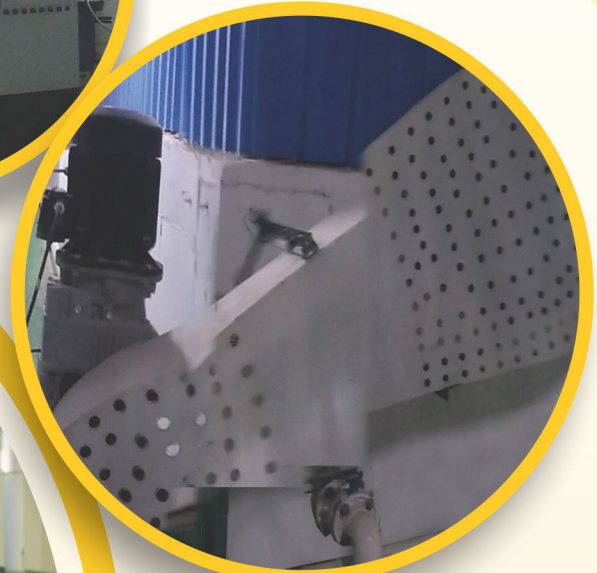

About DCS Techno Services Private Limited

DCS Techno Services Private Limited (DCSTS) has been a reliable Pan India, Solution Provider in the field of Mining, Construction and Infrastructure since 1997.

As a strategic move to position itself for the construction boom in India, DCSTS has added Eco Green division to complement the company's existing business activities and broaden its services.

In our endeavour to make a "SPLASH" in the Eco World, we were fortunate to include an Advanced Sewage Treatment Plant Technology. DCSTS provides complete solution including marketing, installing, commissioning, servicing, Operating and Maintaining sewage treatment facilities.

STP's are today a MUST and our RBBR (Rotating Bed Bio Reactor) technology for capacities above 25 KLD has lot of advantages to lead the way to a greener and cleaner tomorrow.

Also Saves Space :
